

Grok Brief - Build + Tools (oficial)

ROUND1 sample | 2026-09-05 America/Sao_Paulo

Fontes: x.ai/pricing | docs.x.ai/build/overview | docs.x.ai/developers/models | docs.x.ai/developers/models/grok-build-0.1 | docs.x.ai/developers/pricing | docs.x.ai/console/billing

API credit US\$0.00 - sem top-up - sem inventar model IDs/precos.

1) Dois caminhos para Build

- Consumer Grok Build (TUI/headless/ACP): assinatura. SuperGrok lista Grok Build access (x.ai/pricing).
- API Code/Build: prepaid credits. Modelo que powers Build na API (docs): grok-4.6. Tambem listado: grok-build-0.1.
- Heavy/consumer != API. SuperGrok nao enche Credit balance.

2) Instalar (docs.x.ai/build/overview)

- `curl -fsSL https://x.ai/cli/install.sh | bash`
- `cd projeto && grok | Headless: grok -p "Explain this codebase"`
- API Responses: <https://api.x.ai/v1> com model grok-4.6

3) Ficha grok-build-0.1

- Context 256k | text+image->text | FC/structured/reasoning Yes | Batch: Not supported
- <200k: in 1.00 / cached 0.20 / out 2.00 USD por 1M
- >=200k: in 2.00 / cached 0.40 / out 4.00 USD por 1M
- Aliases: grok-code-fast-1, grok-code-fast, grok-code-fast-1-0825
- Rate: 37 rps | 10M tokens/min | regions us-east-1, us-west-2
- Docs: para code em geral preferir Grok 4.6.

4) Tools (docs.x.ai/developers/pricing)

- Custo = tokens + invocacoes / 1k calls
- web_search \$5 | x_search \$5 | code_execution/code_interpreter \$5
- image_generation = Imagine rates | attachment_search \$10
- collections_search/file_search \$2.50 | view_image/view_x_video = tokens only
- Remote MCP = tokens only. gRPC/Python SDK: code_interpreter e file_search nao suportados.

5) Batch / Priority / storage

- Batch 20% off: grok-4.3 + grok-4.20-*0309. Sem desconto listado p/ grok-4.6 / 4.5 / build-0.1.
- Priority: 2x tokens; so Chat Completions/Responses; so se service_tier=priority.
- Files \$0.025/GiB/day | collections \$0.10/GiB/day | download \$0.20/GiB
- Usage guideline fee (Responses pre-gen): \$0.05/request

6) Planos consumer (x.ai/pricing Individual)

- Free \$0 | SuperGrok \$30 (Grok 4.6, Build access, Imagine) | SuperGrok Plus \$100 (+1080p, higher usage)
- Lite/Heavy/Business/Enterprise: ver tabela oficial (precos Lite/Heavy nao extraidos com certeza).

Checklist

1. Separar assinatura vs prepaid API
2. Credit=0 -> sem top-up sem Luiz
3. Orçar tools: tokens + calls
4. Pin model ID e reabrir pricing no dia
5. PIX LUIZ: _4=R\$10 _2=R\$50 _0/_3=R\$100; R\$20=round1/pix_r20_*
